Pamper the Mom in Your Life

written by Beth Mark | May 5, 2016

Motherhood: it’s a job that never stops. Even when it doesn’t require physical and mental energy, the emotional investment and worry never leaves…even when our heads hit the pillow at night. It’s a job that sometimes requires round-the-clock care, yet most women would say they wouldn’t trade its tasks for the world. That’s why Mother’s Day – and the beautiful, demanding, rewarding work of motherhood – is a holiday to embrace! This Mother’s Day, celebrate the mothers in your life by giving them some relaxation and recharge time, and we guarantee they’ll appreciate it.

We’ve partnered with Erbaviva to offer a unique Mother’s Day gift for all the special women in your life: a pampering bundle of Relax bath salts and Sunscreen for $50.00. Erbaviva’s products are a treat to any recipient as they use ingredients with only the highest standards of organic certification, safety, efficacy and sustainability.

The average woman absorbs 2KG of chemicals into her body from

conventional cosmetics every year, yet Erbaviva's organic products are free of all dangerous pesticides, artificial fertilizers and other toxic chemicals. Their products are made from a combination of organic plant constituents and aromatic essential oils that *"benefit the body, soul and skin."*

We can't think of anything better.

Give the mom in your life a therapeutic, worry-free gift (she's got enough on your mind!) with an **Erbaviva pampering bundle** this Sunday to show her how much you care.
